RECREATE & REBUILD HACKATHON

Recreate it faithfully on Friday. Rebuild it beautifully on Saturday.
Individual hackathon. Frontend only. Mock data fine.

IDEAS • PEOPLE • PRODUCTS • INNOVATION • COMMUNITY

01
INDIVIDUAL
You build alone. One submission per participant. ↗

02
FRONTEND ONLY
No backend needed. Mock data is fine. ↗

03
NOV 6-7
Round 1 Friday, Round 2 Saturday. Sunday free. ↗

01 WHAT IS CAMPUSCODE?

WHERE STUDENTS BUILD.

CampusCode is an AI-powered hackathon platform - one place to run and join hackathons, instead of juggling many tools.

The problem today: a college hackathon runs on scattered tools - a form for registration, WhatsApp for updates, spreadsheets for scores, certificates made manually. Judging is slow and opaque, and participants have no single place to track everything.

- For students: discover events, register, join hackathons, find teammates with

HackMate (including search by CampusCode ID), submit ideas and projects, track rounds and results, and get verifiable certificates and a Digital ID card with QR.

- For organisers: create hackathons, manage registrations and approvals, run rounds, monitor submissions, and judge with AI help.
- AI features: IdeaCheck (idea screening), HackMate (team finding), RuleBot (rules help), R1/R2/R3 analysers, and a student-panel chatbot.
- Tagline: BUILD - COMPETE - SHIP. Live at campuscode.co.in.

02 SCOPE - READ THIS FIRST

COMPLETE USER FLOW. NOT JUST ONE PAGE.

ReBuild '26 is an INDIVIDUAL hackathon, not a team hackathon. You participate alone, with your own submission.

BUT you must create a team name for tracking. Use the same team name on your Unstop registration, on the CampusCode portal, and on every submission, so organisers can track your work. The team name is for tracking only - you still build alone.

Scope = 4 pages. Not just one page alone, and not the whole CampusCode app. Not a full backend + frontend project.

PAGE	ROUND 1 - RECREATE	ROUND 2 - REBUILD
Landing page	Recreate faithfully	Redesign, original
Login page	Recreate faithfully	Redesign, original
Register page	Recreate faithfully	Redesign, original
Student dashboard	Recreate faithfully	Redesign, original

The student dashboard must show My Events and Events. Round 1: you may add small animations and colours, but they must blend into the UI - do not redesign. Round 2: a complete new UI, original design in CampusCode's vibe.

03 BRAND GUIDELINES

USE CAMPUSCODE'S LOOK. EXACTLY.

Your design must feel like CampusCode. Use these exact brand elements - do not invent a new logo or new colours.

CAMPUSCODE - three slashes, use as-is

- Logo: three slashes - black, purple, lime - on the landing page. Use it as-is, unmodified. Never recolour it, stretch it, or substitute a different icon.
- Landing page style: light background #f7f7f4, white cards, thin borders #deded8, clean modern type, big bold headings, small mono labels.

BG #f7f7f4 | WHITE | PURPLE #7665ff | LIME #a8e62e | BLACK #111111

- Primary: Purple #7665ff. Accent: Lime #a8e62e / #82b91a. Base text: Black #111111.
- Style: clean, simple, readable. Big headings, lots of white space. No clutter, no dark neon theme that hides content.
- Tagline: BUILD - COMPETE - SHIP.

04 HOW IT WORKS

THE SCHEDULE. IN ONE TABLE.

All dates are November 2026, online, IST. All updates come first in the WhatsApp group. Results are posted in the WhatsApp group and the WhatsApp channel.

DATE	ROUND	TIME	WHAT HAPPENS
Wed, 5 Nov	Get ready	10 AM / 6 PM	Rules + round details shared 10 AM; registrations close 6 PM
Fri, 6 Nov	Round 1: Recreate	8 AM - 10 PM	Recreate the 4 pages. Submit demo by 10 PM
Fri, 6 Nov	Shortlist	After 10 PM	R2 shortlist posted in WhatsApp group + channel
Sat, 7 Nov	Round 2: Rebuild	10 AM - 8 PM	Top performers only. Complete new UI. Submit by 8 PM
Sun, 8 Nov	Diwali	-	No round. Enjoy Diwali with family
Mon, 9 Nov	Round 3: Interview	-	Interview shortlist given
Tue, 10 Nov	Certificates + R3	-	Participation certificates issued; R3 interviews begin
Wed, 11 Nov	Round 3: Interview	-	Interviews continue

Before the rounds, do this now: (1) Register on Unstop by 5 Nov, 6 PM (₹50). (2) Create your CampusCode account at campuscode.co.in (Full Name, Email, Password, STUDENT, 18+ tick, captcha, email OTP). Already have an account? Just login. (3) Create your team name for tracking and use it everywhere. (4) Join the ReBuild '26 event on the same portal and enter your invite code (sent to paid students only - no matching code means you cannot join). (5) Fill the verification form: https://forms.gle/rnAH74mwfX4fRf9S9 (Unstop + portal details, screenshots) - do this before Round 1. (6) Stay in the WhatsApp group.

05 ROUND 1 - COMPLETE DETAILS

RECREATE. FRIDAY 6 NOV.

FRIDAY, 6 NOVEMBER 2026 | 8:00 AM - 10:00 PM IST

Round 1 is recreation. Rebuild the 4 pages of CampusCode exactly as they are - same layout, same sections, desktop-first. Frontend only, mock data fine, no backend needed.

- What to build: Landing page, Login page, Register page, Student dashboard (with My Events and Events). All 4 pages, complete.
- How to see them: open the live CampusCode portal at campuscode.co.in and recreate what you see there.
- Small additions allowed: animations and colours, but they must blend into the UI. Do not redesign in Round 1.
- What to submit (portal only): GitHub repo link + live demo link + a note for the organizer (typed in the form). PDF link is optional - if you share one, it must be a public Google Drive link.
- AI tools may be used, but only in a limited way. Our team will verify your code - if more than 40% of the code is AI-written, your submission will not be considered. You must be able to explain your own code.
- Deadline: Friday 10:00 PM. Late submissions will not be accepted. What is live at the deadline is what gets judged.
- Judged on: faithful recreation, completeness (all 4 pages), polish and desktop experience.

06 ROUND 2 - COMPLETE DETAILS

REBUILD. SATURDAY 7 NOV.

SATURDAY, 7 NOVEMBER 2026 | 10:00 AM - 8:00 PM IST | TOP R1 PERFORMERS ONLY

Round 2 is a rebuild. Design a complete new UI in CampusCode's vibe - redesign the

same 4 pages with an original look. Not a copy of Round 1, and not a copy of the live portal. Frontend only, mock data fine, no backend needed.

- Who: top performers shortlisted from Round 1 only. The shortlist is posted in the WhatsApp group and channel after Round 1 ends.
- What to build: a complete new UI - Landing page, Login page, Register page, Student dashboard - redesigned, original, in CampusCode's vibe.
- Animations, colours and new ideas are welcome in Round 2. Keep the CampusCode look from Section 03 - clean, simple, readable.
- What to submit (portal only): GitHub repo link + live demo link + a note for the organizer (typed in the form). PDF link is optional - if you share one, it must be a public Google Drive link.
- AI tools may be used, but only in a limited way. Our team will verify your code - if more than 40% of the code is AI-written, your submission will not be considered.
- Deadline: Saturday 8:00 PM. Late submissions will not be accepted. What is live at the deadline is what gets judged.
- Judged on: originality, CampusCode vibe fit, usability, completeness and polish.

07 GENERAL RULES

PLAY FAIR. BUILD YOUR OWN.

- Individual participation only. One submission per participant per round. Your submission must be your own work.
- Invite code: ReBuild is a paid event (₹50 on Unstop). Paid students receive an invite code - enter it when you join the event on the CampusCode portal. A code works only for its own email and cannot be reused by someone else.
- Use the same team name (tracking name) on your Unstop registration, on the portal, and on every submission.
- Do not copy a ready-made dashboard template as-is. UI libraries (Tailwind, Bootstrap) are allowed.
- Do not submit only screenshots - a working live demo link is required. Test your live link on desktop/laptop before submitting. A broken link cannot be judged.
- Do not resubmit your Round 1 recreation as your Round 2 entry.
- Use CampusCode's logo and colours exactly as in Section 03.
- No presentation round. The CampusCode team's decision is final.

08 JUDGING

NO PERCENTAGES. JUST THESE

CRITERIA.

Judges score on these criteria only - there are no fixed percentage weightings:

- Round 1: faithful recreation, completeness (all 4 pages), polish and desktop experience. Small animations and colours that blend in are a plus, not a redesign.
- Round 2: originality, CampusCode vibe fit, usability, completeness and polish.

09 PRIZES

WIN. AND GET RECOGNISED.

PLACE	PRIZE
Winner	Winner Certificate + CampusCode Internship with ₹15,000 stipend
Runner-up	Runner-up Certificate
All participants	Participation Certificates

There are no cash prizes. The internship is the winner's prize, along with the Winner Certificate.

10 PRESSURE? WE REMOVED IT.

BUILT FOR STUDENTS. NOT AGAINST THEM.

- Round 1 is a long window (Friday morning to 10:00 PM), not a strict sit-in. Work before college, after college, or in between.
- You do not have to stay online continuously. Round 2 is only for top performers, so others are free after Friday.
- No round on Sunday (Diwali), and no presentation to prepare.
- Facing a technical issue during submission? Tell organisers in the WhatsApp group immediately - do not wait till after the deadline.

11 LINKS & SUPPORT

EVERYTHING IN ONE PLACE.

- Unstop (ReBuild '26): https://unstop.com/o/fkjO4l3?lb=usedc6Xo&utm_medium=Share&utm_source=online_coding_challenge&utm_campaign=Teknisfr22713
- WhatsApp group: https://chat.whatsapp.com/FaW0n5jiZRj8c5mz35e5EC?s=cl&p=a&mlu=4&ilr=4
- WhatsApp channel: https://whatsapp.com/channel/0029Vb8gR7TEVccLc1pW4O2d
- CampusCode portal: https://campuscode.co.in
- Verification form: https://forms.gle/rnAH74mwfX4fRf9S9
- Support email: support@campuscode.co.in
- If anything in this PDF and a later group announcement differ, the latest group announcement governs.

12 RESOURCES

EVERYTHING YOU NEED.

Use these while you build. The logo file is shared with this PDF - use the exact file, do not redraw it.

Logo: campuscode-logo.png (shared with this PDF). Use it as-is - never recolour, stretch or redraw it.

BG #f7f7f4 | WHITE | PURPLE #7665ff | LIME #a8e62e | BLACK #111111

- Fonts: Inter (headings, bold) and DM Mono (small labels) - both free on Google Fonts.
- Live portal: https://campuscode.co.in - open it and browse the real pages. Recreate what you see there.

HOW TO HOST YOUR DEMO - FREE

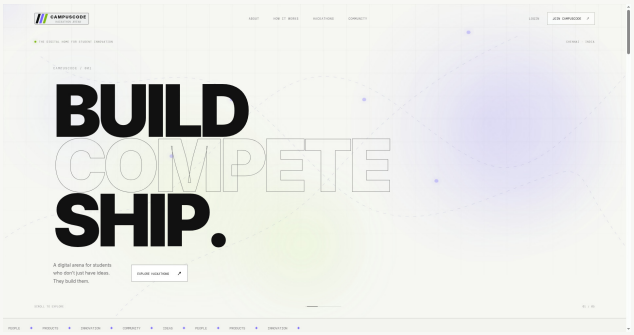

- 1. Push your code to GitHub (free account).
- 2. Go to vercel.com, click Add New Project, import your GitHub repo, click Deploy. Free.
- 3. Or go to netlify.com, Add new site, import your repo, Deploy. Free.
- 4. Copy your live link (like your-project.vercel.app) and paste it as your demo link in

the portal.

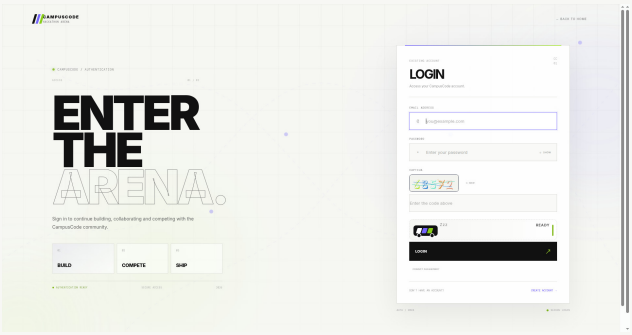

- Tip: if your site is plain HTML / CSS / JS with no build step, drag your project folder onto Netlify Drop (app.netlify.com/drop) - no GitHub needed.

REFERENCE SCREENSHOTS - THE 4 PAGES TO RECREATE

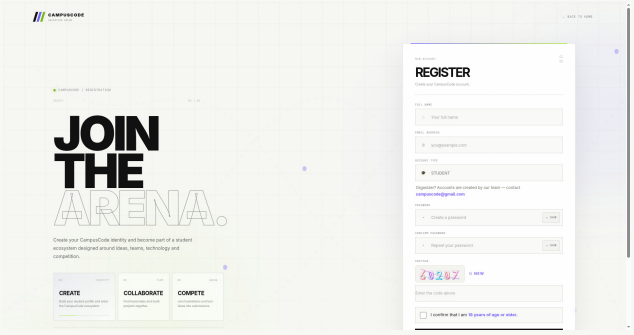

Recreate these pages in Round 1. Screenshots are reference only - the live portal is the final truth if anything differs.
